small savings are of as much importance as large ones. But the owners of small savings, as a rule, are not duly sensible of that fact. The sum seems insignificant. They look at them absolutely, not relatively, failing to realize that rate of growth is what makes accumulations.

INFLUENCED BY

STOCKS AT NEW YORK SHOWED A STRONG UPWARD TENDENCY.

A Few Notable Exceptions in the List -Effect of the Mild Weather in Local Business Circles.

At New York yesterday money on call was steady at 507 per cent.; last loan at 5 per cent.; prime mercantile paper, 5@51/2

Sterling exchange was easy, with actual business in bankers' bills at \$4.83% @4.87 for demand and at \$4.82%@4.83 for sixty days; posted rates, \$4.84@4.841/4 and \$4.88@4.881/2; commercial bills, \$4.82.

Silver certificates were 58%@59c; bar silver, 57%c; Mexican dollars, 47%c. Bar silver The stock market gave convincing evi-

at London was steady at 26%d per ounce. dence yesterday of a substantial growth of bull sentiment in Wall street. The dealings took on more appearance of animation than at any time since the violent downward course of prices, when the money situation was beginning to awaken anxiety. Dealings were very well distributed and almost every department of the securities market was represented in the advance. Handsome gains in prices were achieved in many prominent stocks, and in a large number of cases the last prices were the best. In other cases profit-taking made notable inroads upon the day's highest prices, and some effort was made obvious in sustaining the market in the closing dealings. It was a noticeable feature of the market also that while a number of members of a distinctive group of stocks would show great strength and activity, other members of the same group, seemingly dependent on the same influences, would remain quiescent and almost immovable. Thus while Louisville and the Norfolk stocks advanced vigorously other conspicuous Southern lines of railroads were quite unaffected. Again, while the grangers as a rule were strong and active, Northwestern scarcely moved, and the Pacific stocks, including Southern Pacific, showed very slight response to the prevail-ing strength. The New York, Chicago & it is understood, will call for £10,000,000. The chancellor of the exchequer, in the House palpable manipulation, the first preferred rising an extreme eight points and the second preferred six points. New York Cen-tral was also vigorously bulled to a maxfmum price of 140. The high-priced specialies, including Sugar, Tobacco and Peo-le's Gas, and the local traction stocks. vere all of them quite aggressively strong. The largest activity was in the Leather stocks, and the buying in them continued until the close, the common crossing 19 and the preferred touching 81. This enumeration includes the most conspicuous in-stances of strength. There was, at the same time, a notable backward movement in Pullman. Laclede Gas and Anaconda, which show net declines, respectively, one-half, six and two points. American Malting and one or two of the iron and steel stocks also reacted, and Glucose Sugar preferred dropped three points in spite of he strength of the common stock. How the day's strength was due to coverby the short interests, which common credence places at still larger proportions

The continued downward course of sterling exchange affords relief from all appresion of gold exports. But no prospect is discernible of easier money conditions Call money yesterday was stiffer at 6 and per cent, and time loans for all periods again came back to 6 per cent. The exhange continued to move in favor of the nterior as against New York. Recent large expenditures by the government show declining tendency, and thus threaten a newed drain on the New York banks in taking up the government surplus. The day's movement of stocks demonstrates completely the money outlook was ig-

GAVE A STEADIER TONE TO CHI-CAGO PROVISION MARKET.

Wheat Got Above the Seventy-Cent Mark-Oats and Provisions Scored Substantial Gains on the Day.

CHICAGO, Oct. 23 .- Corn was the leader on 'Change to-day, and furnished the principal foundation for the strength developed in the other markets. Disappointing husking returns and a steady decrease in stocks gave corn traders an opportunity to give vent to a feeling that has been struggling for expression for some time, and the December option closed with a gain of %c. There was a general buying movement in wheat, with shorts the principal participants, and December closed at an advance of %c net. Oats rose %c, and provisions from 234c to 10c.

Wheat opened strong and active. Complaints of damage by drought in the Southwest, and higher Liverpool cables, notwithstanding the downward tendency of the market here for the last week, caused the change in sentiment. Buying was heavy from the outset, and as offerings were scarce, the market soon got above call figure. Profit taking and selling by holders of privileges caused a slight reaction, after 1/2c had been added to the opening advance, but as corn had begun to show decided strength, shorts became anxious and ran to cover. Outside buying toned the upturn that followed, and the price tended upward the remainder of the session, the market closing steady at the best price of the day. A smaller increase in the visible supply than was expected and liberal clearances helped to maintain the advance. December opened a shade higher at 69% @70c, advanced

to 70%@70%c, sold off to 70%c, and advanced to 70% @70% at the close. Chicago received 222 cars, nine of which graded contract. Minneapolis and Duluth got 1,021 cars, comagainst 2,008,000 last year. Atlantic port clearances in wheat and flour equaled 395,-000 bushels. World's shipments to Europe last week were 8,000,000 bushels. The visible supply increased only 1,284,000 bushels, whereas an increase of over 2,000,000 bushels had been expected. Cash demand here was slow as well as at the seaboard, where only twenty boatloads were reported

Corn started strong, and kept improving a little right along until within half an hour from the close, when profit taking checked the advance. Reports of poor yield and a large decrease in stocks, coupled with the heavy current requirements of both foreign and domestic consumption caused the market's strength. The buying was well dis-tributed, with the market a broad one. Receipts were 553 cars. Domestic visible decreased 966,000 bushels. Cash demand was good. December opened 1/40/4c higher at 30%@30%c to 30%c, sold sparingly at 30%c@30%c, and advanced to 31%@31%c at the

Oats closed at an advance. Receipts were 320 cars. Visible decreased 372,000 bushels. December opened 1/3c higher at 22%c, eased off to 22%@22%c, and advanced to 22%@22%c Higher prices for hogs and a good cash meat demand strengthened provisions. The advance in corn was a further encouragement, and a moderate gain was easily established. January perk closed 71/2010c higher at \$9.421/209.45, and January lard and ribs at 21/2c higher at \$5.33 and \$4.921/2. re-

Secretary Butler, of the State Board of Charities, returned yesterday from Jeffersonville, where he spent Saturday and Sunday at the reformatory. He says that the old cell house and shop has been nearly torn down and the foundry has been remodeled. The new working shop has been occupied. The foundation for the new cellhouse will be commenced soon and a new upper deck has been placed in Cellhouse A. In the meantime 160 men are sleeping in the corridors, the schoolroom has been converted into a sleeping room and school is being held in the chapel. There were 96 men present at the count on Saturday, as compared with 936 the same day last year. Those paroled last year numbered 398, of which 33 were returned for violation of the parole. Bulls, medium to choice	3.25@ 3.75
Bulls, common	2.50@ 3.75

Hogs-Receipts, 820; shipments, 780. The market opened steady to strong. The quality was only fair, being mostly light and mixed grades, with no good heavy on sale. Had there been any 250 lbs averages they would have sold at quotations. The market closed firm on heavy weights and quiet on lights, with all sold early. Quotations:

The statement in yesterday's Journal that hogs averaging 209 pounds sold on Saturday at \$4.25 was erroneous. The lot brought

\$4.45. Sheep-Receipts too light to be of any interest to buyers, consequently but little business transacted. The closing was steady. Quotations:

 Good to choice sheep
 \$3.50@4.00

 Common to medium sheep
 2.25@3.25

 Good to choice lambs
 4.50@5.00

 Light to medium lambs
 3.25@4.50
